

## DEFOAMER RANGE FOR PAINTS

Defoamers should be effective in avoiding and destroying foam. Therefore it's important to have the right product for different applications. In paint processes air bubbles should be removed or the best be prevented.

With our broad range of defoamers there is a solution for various types of paints and coatings. We have silicone based and silicon free, oil based, waxed based and water based defoamers.

All defoamers are formulated without alkylphenoethoxylates.
